

CR3001 Maxfit® Cut Resistant Product Specification.

Maxfit® CR3 Product Description.

The product is a five finger glove, knitted with Nylon and Ultra High Molecular Weight Polyethylene. It is coated on the palm surface with a proprietary polymer, the back of the glove is an open knit and it is colored white. It provides cut resistance to EN388 level 3.

Applications.

- ❖ General Purpose
- ❖ High dexterity - good when a high degree of dexterity is needed for micro engineering, assembly, machining.
- ❖ Where good touch sensivity is required body work, quality control, small component handling, pharaceutical vials.
- ❖ Where NeverSlip(tm) grip technology is needed when dealing with wet or oily component or where dropping an object can be a safety problem or a costly accident.
- ❖ When working with sharp edges and unfinished machine work, paper or glass where protection to level 3 is sufficient

Technical Specifications.

- ❖ General Purpose & Cut Resistant.
- ❖ Material: Nylon & UHMPE knit.
- ❖ Color: White.
- ❖ Cuff color Black.
- ❖ Palm coating: Black Polymer with enhanced NeverSlip(tm) technology.
- ❖ Sizes: S/M/L/XL.
- ❖ Packaging 12/dozen, 20 dozen/case, 240 pr/case.
- ❖ Case weight 29-35 lbs
- ❖ Case Dimensions: 25 x 11 x 15 inches
- ❖ EN388: 4342 - Abrasion/Cut/Tear/Puncture (measured from 1 to 5) 5 is best).
- ❖ Dexterity Level 5 (measured from 1 to 5) 5 is best).
- ❖ Harmonized code: 6116.10.6500
- ❖ Country of Origin: China

Health & Environment.

Maxfit® Hidex

Contains no materials in its palm coating identified in OSHA bulletin SHIB012808 that are associated with latex or Nitrile ingredient allergies.

Maxfit(r) gloves are washable and re-usable unlike most Leather, Nitrile and Latex products.

In some instances glove waste can be reduced by a factor of more than 10.

Wash & Re-use.

Wash by hand or machine in normal cold or hot wash to remove dirt and oils. Hang dry or machine dry at normal drier temperatures. Can be washed and reused countless times with no shrinkage
